25X1
Noted that [] is proposing to do an overt study on [] and plans to use only unclassified material and work with uncleared people. He said there was one individual in particular, about whom Security has some doubts, that [] plans 25X1
to employ for the duration of this project. Mr. [] went 25X1
on to say that Col. Edwards had taken the position that he did not feel government funds should be used to support a project in which doubtful characters are used. Mr. Dulles remarked that this was not Security's decision since in certain instances it may be expedient for CIA to use all types of people. The Director raised the question, however, as to whether this project is worthwhile. ACTION: Mr. [] undertook to report to the 25X1
Director on this point; Mr. Kirkpatrick undertook to handle the problem of Security with Col. Edwards.
